

Baby Twin

Pump pressure	15 bar
Control panel	Electronic Touch ring
Dosing system	Y
Rapid steam	Y
3 Filters equipment	1 cup/pod/2 cups
Cappuccino accessory	Steel pannarello
Group and filter holder	Chromed brass
Three way solenoid valve	Y

Baby Twin is the jewel of the line. It's fitted with a double heating system and an electronic control panel Touch-ring. The Rapid Steam function eliminates the waiting time between making espresso and producing a thick, foamy crema. In a few seconds you can taste an authentic cup of cappuccino ...**like one at a coffee shop.**

The Baby Twin boasts a unique commercial chrome-plated brass portafilter and brew group, and three way solenoid valve.
